SUBJECT INDEX TO VOLUME 36

(CPC) = Clinicopathologic Conference; (CSC) = Combined Staff Clinics; (E) = Editorial

Abdominal pain associated with hepatomegaly, jaundice, shock, acidosis and death (CPC), 624
Acidosis, abdominal pain, hepatomegaly, jaundice, shock and death (CPC), 624
Acids and bases, organic, renal tubular mechanisms for excretion of, 743
Adenocarcinoma
  of stomach (CPC), 624
  renal, containing parathyroid hormone-like substance, and hypercalcemia, 805
ADH (antidiuretic hormone), cellular mode of action, 686
Adrenocorticosteroids in treatment of pulmonary infiltrates, pericarditis and eosinophilia, 135
Alveolar hypoventilation in myxedema, 876
Alveolar ventilation in lung disease, effect of dichlorphenamide on, 79
Amino acid metabolism in cerebro-oculo-renal syndrome, 778
Ammonia formation and excretion, metabolic pathways involved in, 720
Analgesic nephrotoxicity, a pharmacologic analysis (E), 167
Androgens, effect on bone formation and resorption in osteoporosis, 514
Anemia, "acquired" antibody hemolytic, and familial aberrations in gamma globulins, 188
Antibodies, circulating, to gluten and milk fractions in nontropical sprue, 485
Antibiotics in management of severe pulmonary emphysema, 62
Antidiuretic hormone, cellular mode of action, 686
Aorta
  and pulmonary trunk, corrected transposition of, 35
  primary diseases of, microscopic features (CPC), 301
Arthritis, acute, in chronic renal failure, 571
Atherogenesis, serum cholesterol-triglyceride distribution in, 262
Atrial fibrillation
  see Fibrillation
Auscultation of heart, revision of classic areas of, 293

Bilirubin excess in blood in absence of overt hemolysis, 541
Biting, self-destructive, and hyperuricemia in children, 561
Bleeding esophageal varices, phenylalanine^{3}-lysine^{8}-vasopressin in treatment of, 825
Bone metabolism in osteoporosis, 514
Bones, intramedullary fat necrosis in, 96
Brain disorder and hyperuricemia in children, 561
Bronchodilators in management of severe pulmonary emphysema, 62

Calcium
  absorption
    abnormal, in sarcoidosis, 500
    in chronic renal failure, 763
  intake
    effect on bone formation and resorption in osteoporosis, 514
    in osteoporosis, metabolic balance studies of, 233
Calculi, renal, in liver glycogen disease, 443
Carbonic anhydrase inhibitors and hypercapnia, 79
Carcinoid syndrome associated with cardiac disease, 5
Carcinoma
  giant cell, of lung, 214
  of lung, effect on pulmonary function in man, 382
  unusual systemic manifestations associated with, 106
Cardiac
  see also Heart
  features associated with carcinoid tumor, 5
Central nervous system
  function and familial disorder of uric acid metabolism, 561
  involvement in pulmonary sarcoidosis (CPC), 430
Cerebro-oculo-renal syndrome, amino acid metabolism in, 778
Chediak-Higashi syndrome, cytologic and serum lipid observations in, 583
Chloride, renal tubular transfer of, 643
Chlorothiazide and trimethaphan, 87
Cholesterol
  levels in systemic lupus erythematosus and nephrotic syndrome, 250
  -triglyceride distribution among "normal" New York City population, 262
  -triglyceride distribution among Seventh-day Adventists, 269
Chondroitin sulfuric acid excretion and mastocytosis, 144
Choreoathetosis in children, 561
Cirrhosis
  and ulcerative colitis, 856
  portal venous pressure reduction in, with phenylalanine^{3}-lysine^{8}-vasopressin, 825
  postnecrotic, and 6-mercaptopurine, 200
Clinicopathologic Conferences
  Lymphoma and gout, 936
  Multiple myeloma, 121
  Pulmonary sarcoidosis with progressive central nervous system symptoms requiring craniotomy, 430
  Right upper quadrant pain, hepatomegaly, jaundice, shock, acidosis and death, 624

Clinicopathologic Conferences
Scleroderma (progressive systemic sclerosis), 301
Colitis, chronic ulcerative, and liver disease, 856
Collagen disease, idiopathic retroperitoneal fibrosis presenting as, 320
Coma
and pulmonary emphysema, 62
myxedema, thyroid hormone replacement therapy in, 883
Combined Staff Clinic
Thalassemia syndromes, biochemical, genetic and clinical considerations, 919
Connective tissue disorder, malignant lymphoma in, 529
Craniotomy for central nervous system involvement in pulmonary sarcoidosis (CPC), 430

Dialysis
in treatment of chronic renal failure, 763
periodic, for acute arthritis in chronic renal failure, 571
Dichlorphenamide, effect in chronic lung disease, 79
Digitalis and S-T segment abnormalities, 424
Drug therapy of hypertension and changes in renal function, 795
Dysgenesis, atypical or mixed gonadal, with hermaphroditism related to gonadal neoplasm, 281

Editorials
Analgesic nephrotoxicity, a pharmacological analysis, 167
Foreword to symposium on kidney, 641
Fructose-1-phosphate aldolase deficiency in Tay-Sachs disease, 481
Gram-negative shock and endotoxin shock, 819
Heart as an endocrine organ, 1
Proteins, evolution and disease, 337
Electrolyte transport at cellular level, 643
Electron microscopic studies of renal biopsy specimens in glomerulonephritis, 787
Emphysema
hypoventilation due to, managed by respirator therapy, 68
pulmonary, management of, 62
Endocrine organ, heart as an (E), 1
Environment, effect on serum cholesterol-triglycerides in Seventh-day Adventists, 269
Enzyme defect in liver glycogen disease, 443
Eosinophilia syndrome and pulmonary infiltration, 135
Esophageal varices, bleeding, treated with phenylalanine^{3}-lysine^{8}-vasopressin, 825
Estrogens, effect on bone formation and resorption in osteoporosis, 514
Evolution, proteins and disease (E), 337

Fat necrosis, intramedullary, in acute and chronic pancreatitis, 96
Fatty change in liver disease and chronic ulcerative colitis, 856
Felty's syndrome, variable features of, 463
Ferrokinetics in congestive heart failure, 553
Fibrillation, atrial, 362
hemodynamic consequences at constant ventricular rates, 342
Fibrinolysins, pulmonary, in hyaline membrane formation in adults, 377
Fibrosis
idiopathic retroperitoneal, presenting as systemic collagen disease, 320
in early lipoid pneumonia, 370
Fistula, left ventricular-right atrial, hemodynamic findings in, 476
Fluid intake in renal failure, 763
Fluorescence microscopy in lipoid pneumonia, 370
Fructose-1-phosphate aldolase deficiency in Tay-Sachs disease (E), 481

Gamma globulins, familial aberrations in, and "acquired" antibody hemolytic anemia, 188
Ganglion blocking agent (trimethaphan), effect of chlorothiazide on vasodepressor action of, 87
Gastrointestinal tract, malabsorption following radiation injury to, 450
Glomerulonephritis in two sets of identical twins, 787
Glucose levels (blood) in functioning islet cell tumors, 867
Gluten antibodies in nontropical sprue, 485
Glycogen disease, liver, in two generations of a family, 847
Gonadal neoplasm
see Neoplasm
Gout and lymphoma (CPC), 936
Granulomatosis in early lipoid pneumonia, 370

Hashimoto's thyroiditis in false-positive reactors to tests for syphilis, 174
Heart
as an endocrine organ (E), 1
auscultation of, revision of classic areas of, 293
digitalis and S-T segment depression, 424
disease
atrial fibrillation, 362
atrial fibrillation, hemodynamic studies in, 342
carcinoid, 5
corrected transposition of aorta and pulmonary trunk, 35
left ventricular, right atrial fistula, 476
pericarditis and eosinophilia, 135
tetralogy of Fallot, 54
failure, congestive
explanation for abnormal water retention and hypoosmolality in, 351
ferrokinetics and red cell survival in, 553
jaundice and thyrotoxicosis in absence of, 840
Hemodialysis, periodic, recurrent acute (?gouty) arthritis treated with, 571
Hemodynamic consequences of atrial fibrillation, 342
Hemodynamic findings in left ventricular-right atrial fistula, 476
Hemodynamics, renal, 686

Hemolysis, overt, unconjugated hyperbilirubinemia in absence of, 541
Hemolytic anemia, acquired
see Anemia
Hemorrhage
fatal, into liver in lupus erythematosus, 948
from esophageal varices, successful treatment with vasopressin derivative, phenylalanine^{2}-lysine^{8}-vasopressin, 825
Heparin administration, prolonged, selective hypoaldosteronism after, 635
Hepatic
see also Liver
sarcoidosis with portal hypertension, 470
Hepatitis
lupoid and plasma cell, suppressed with 6-mercaptopurine, 200
viral, in chronic ulcerative colitis, 856
Hepatomegaly, abdominal pain, jaundice, shock, acidosis and death (CPC), 624
Hermaphroditism with gonadal dysgenesis, relationship to gonadal neoplasm, 281
Hormone
antidiuretic, cellular mode of action of, 686
assay, parathyroid, in renal adenocarcinoma, 805
Humoral and nervous control of renal blood flow, 698
Hyaline membrane formation, 377
Hyaluronic acid excretion in mastocytosis, 144
Hyperbilirubinemia, unconjugated, in absence of overt hemolysis, 541
Hypercalcemia associated with tumor, 805
Hypercalciuria and sarcoidosis, vitamin D sensitivity in, 500
Hypercapnia and carbonic anhydrase inhibitors, 79
Hypercholesterolemia, familial, and xanthomatosis, 277
Hypersensitivity to vitamin D in sarcoidosis, 500
Hypertension
and renal function, 795
malignant, and lupus erythematosus, 948
portal, with hepatic sarcoidosis, 470
Hypertrophy, S-T segment deviation due to, 424
Hyperuricemia
and brain disorder in children, 561
in liver glycogen disease, 443
Hypoaldosteronism, selective, after prolonged heparin administration, 635
Hypogammaglobulinemia, analysis of 100 cases, 618
Hypoglycemia associated with neoplasia, 415
Hypoosmolality in congestive heart failure, 351
Hypophosphatemia in vitamin D-resistant rickets, 222
Hypotension, postural, in Wernicke's disease, 404
Hypothalamic discharge, periodic, 956
Hypothyroidism with Hashimoto's struma, 174
Hypoventilation
alveolar, in myxedema, 876
due to emphysema, respirator therapy in management of, 68

Immunocytochemical studies in lupus erythematosus, 948
Intermittent positive pressure breathing in management of pulmonary emphysema, 62
Inulin clearance, antihypertensive drug therapy and renal function, 795
Islet cell tumors, clinical and biochemical studies in, 867

Jaundice
and thyrotoxicosis in absence of congestive heart failure, 840
hepatomegaly, abdominal pain, shock, acidosis and death (CPC), 624

Kidney
see also Renal
symposium on, 641–777

Leucine, response to, in patients with functioning islet cell tumors, 867
Leukemia, chronic lymphocytic, associated with hypogammaglobulinemia, 618
Lindau's disease, review of literature and study of large kindred, 595
Lipid, serum, in Chediak-Higashi syndrome, 583
Lipoid pneumonia, 370
Liver
disease in chronic ulcerative colitis, 856
glycogen disease, 443
in two generations of a family, 847
hemorrhage in lupus erythematosus, 948
Lowe's syndrome, variants of, 778
Lung
disease
effect of dichlorphenamide on, 79
silo-filler's disease, clinical, physiologic and pathologic study, 457
giant cell carcinoma of, 214
hyperlucent, and collateral ventilation, 395
metastatic carcinoma of, effect on pulmonary function in man, 382
tumor, giant cell, anatomic and clinical correlation, 214
Lupoid hepatitis
see Hepatitis
Lupus erythematosus
immunocytochemical studies in, 948
systemic
and Hashimoto's thyroiditis, 174
normocholesterolemic, nephrotic syndrome of, 250
with fatal hemorrhage, into liver, 948
Lymphoma
and adult hypogammaglobulinemia, 618
and gout (CPC), 936
malignant
in Sjögren's syndrome, 529
reticulum cell type (CPC), 936

Macroglobulinemia of Waldenström, renal failure in, 151

Macroglobulinemic nephropathy, 151
Malabsorption following radiation injury to gastrointestinal tract, 450
Mastocytosis, urinary excretion of hyaluronic acid and chondroitin sulfuric acid in, 144
Mediterranean fever, familial, 893
Medullary blood flow, 698
Mental retardation and hyperuricemia in children, 561
6-Mercaptopurine, suppression of plasma cell hepatitis with, 200
Milk fractions in nontropical sprue, presence of circulating antibodies to, 485
Multiple myeloma
see Myeloma
Muscle mass, well developed left ventricular, associated with tetralogy of Fallot, 54
Myeloma, multiple (CPC), 121
and myeloproliferative syndromes, 315
associated with hypogammaglobulinemia, 618
Myeloproliferative syndromes and multiple myeloma, 315
Myocardial injury, S-T segment deviation due to, 424
Myopericarditis, acquired hemolytic anemia and thyrotoxicosis, 188
Myxedema
alveolar hypoventilation in, 876
coma, thyroid replacement therapy in, 883

Neoplasia associated with hypoglycemia, 415
Neoplasm, gonadal, relationship to hermaphroditism with atypical or mixed gonadal dysgenesis, 281
Nephrotic syndrome
associated with hypogammaglobulinemia, 618
associated with penicillamine therapy of Wilson's disease, 330
normocholesterolemic, of systemic lupus erythematosus, 250
penicillamine-induced, 330
Nephrotoxicity, analgesic (E), 167
Nervous and humoral control of renal blood flow, 698
Nervous system involvement, autonomic, in Wernicke's disease, 404
New York city population, serum cholesterol-triglyceride distribution in, 262

Oculo-cerebro-renal syndrome, amino acid metabolism in, 778
Ornithine metabolism in cerebro-oculo-renal syndrome, 778
Osmotic concentration of urine, 670
Osteoporosis
bone metabolism in, 514
effects of androgens, estrogens and high calcium intakes on, 514
metabolic balance studies of high calcium intake in, 233
Oxygen consumption, renal, and renal blood flow, 698

PAH clearance, antihypertensive drug therapy and renal function, 795
Panaortitis (CPC), 301
Pancreatitis, intramedullary fat necrosis in, 96
Parathyroid hormone assay in renal adenocarcinoma, 805
Penicillamine-induced nephrotic syndrome, 330
Periarteritis nodosa, liver hemorrhage in lupus erythematosus with lesions resembling, 948
Pericarditis and eosinophilia, adrenocorticosteroid therapy in, 135
Periodic hypothalamic discharge, syndrome of, 956
Phenylalanine^{2}-lysine^{8}-vasopressin, reduction of portal venous pressure in cirrhosis with, 825
Pituitary origin, myxedema crisis of, 883
pKa, effect on ionization, 743
Placebo therapy of hypertension associated with changes in renal function, 795
Plasma cell hepatitis
see Hepatitis
Pneumonia, early lipoid, 370
Polymyxin B therapy in mastocytosis, 144
Polyserositis, familial paroxysmal, 893
Portal hypertension
see Hypertension
Portal venous pressure reduction in cirrhosis with phenylalanine^{2}-lysine^{8}-vasopressin, 825
Potassium
intake in renal failure, 763
renal tubular transfer of, 643
Proteins, evolution and disease (E), 337
Pulmonary
see also Lung
Respiration
emphysema, management of, 62
fibrinolysins in hyaline membrane formation in adults, 377
function and pulmonary metastases, 382
infiltration in eosinophilia syndrome, 135
metastases and pulmonary function, 382
physiologic abnormality in progressive systemic sclerosis, 361
sarcoidosis with central nervous system involvement (CPC), 430
trunk and aorta, corrected transposition of, 35

Radiation injury to gastrointestinal tract followed by malabsorption, 450
Red cell survival in congestive heart failure, 553
Renal
see also Kidney
adenocarcinoma of, parathyroid hormone-like substance and hypercalcemia in, 805
analgesic nephrotoxicity (E), 167
biopsy specimens, electron microscopic studies in glomerulonephritis, 787
blood flow and oxygen consumption of, 698
calculi in liver glycogen disease, 443
dialysis in chronic renal failure, 763

Renal
disease
glomerulonephritis in identical twins, 787
in systemic lupus erythematosus, 250
nephrotic syndrome associated with hypogammaglobulinemia, 618
nephrotic syndrome due to penicillamine, 330
failure
acute arthritis in, 571
in macroglobulinemia of Waldenström, 151
management of, 763
function, changes associated with therapy of hypertension, 795
general mechanisms of, 743
hemodynamics of, 686
oculo-cerebral syndrome, 778
oxygen consumption and renal blood flow, 698
production and excretion of ammonia by, 720
tubular mechanisms for excretion of organic acids and bases, 743
tubular transfer of sodium, chloride and potassium, 643
Respiration, mechanical assistance to, in emphysema, 68
Respiratory depression in myxedema, 876
Reticulum cell type malignant lymphoma (CPC), 936
Retroperitoneal fibrosis presenting as collagen disease, 320
Rickets, vitamin D-resistant, 222
Roentgenologic features of intramedullary fat necrosis in bones in pancreatitis, 96

Sarcoidosis
abnormal calcium absorption in, 500
hepatic, with portal hypertension, 470
pulmonary, central nervous system involvement in (CPC), 430
vitamin D sensitivity in, 500
Sarcoma, reticulum cell, in Sjögren's syndrome, 529
Scleroderma
diffuse, pulmonary physiologic abnormality in, 361
(progressive systemic sclerosis) (CPC), 301
Sclerosis, progressive systemic (CPC), 301
early pulmonary physiologic abnormality in, 361
Serum
cholesterol levels in systemic lupus erythematosus associated with nephrotic syndrome, 250
cholesterol-triglyceride distribution
among Seventh-day Adventists, effect of environment on, 269
in "normal" New York City population, 262
lipid studies in Seventh-day Adventists, 269
Servorespirator, patient-controlled, in emphysema, 68
Seventh-day Adventists, serum lipid studies in, 269
Shock
gram-negative and endotoxin (E), 819
hepatomegaly, abdominal pain, jaundice, acidosis and death (CPC), 624
Silo-filler's disease, clinical, physiologic and pathologic study, 457
Sjögren's syndrome
and thyroiditis, 174
reticulum cell sarcoma in, 529
Sodium
intake in renal failure, 763
renal tubular transfer of, 643
transport, effect of ADH on, 686
Splenomegaly, massive, in Felty's syndrome, 463
Sprue, nontropical, gluten antibodies in, 485
Sputum examination in detecting early lipoid pneumonia, 370
S-T segment abnormalities, differentiation of, 424
Stomach, adenocarcinoma of (CPC), 624
Symposium on kidney, 641–777
Cellular mode of action of antidiuretic hormone, 686
Foreword, 641
Management of chronic renal failure—present and prospective, 763
Osmotic concentration and dilution of urine, 670
Renal hemodynamics, 698
Renal production and excretion of ammonia, 720
Renal tubular mechanisms for excretion of organic acids and bases, 743
Renal tubular transfer of sodium, chloride and potassium, 643
Syphilis, false-positive reactors to, Hashimoto's thyroiditis in, 174
Systemic venular insufficiency, 158

Tay-Sachs disease, fructose-1-phosphate aldolase deficiency in (E), 481
Tetralogy of Fallot associated with left ventricular muscle mass and increased life span, 54
Thalassemia syndromes, biochemical, genetic and clinical considerations, 919
Thyroid hormone replacement therapy in myxedema coma, 883
Thyroiditis, Hashimoto's, in false-positive reactors to tests for syphilis, 174
Thyrotoxicosis
and jaundice in absence of congestive heart failure, 840
myopericarditis and acquired hemolytic anemia, 188
Tissue analyses in liver glycogen disease, 947
Tolbutamide, response of patients with functioning islet cell tumors, 867
Tracheobronchopathia osteochrondroplastica, 815
Tracheostomy in management of pulmonary emphysema, 62
Trimethaphan and chlorothiazide, 87
Tubular transport of electrolytes, 643
Tumor
associated with hypercalcemia, 805
cardiac features associated with, 5
giant cell, of lung, 214
islet cell, clinical and biochemical studies in, 867
Twins, identical, glomerulonephritis in two sets of, 787

Ulcerative colitis, chronic, and liver disease, 856
Uric acid
  excretion, 743
  metabolism, familial disorder of, and central nervous system function, 561
Urine, osmotic concentration and dilution of, 670
Urticaria pigmentosa
  see Mastocytosis

Vasopressin derivative, phenylalanine^{3}-lysine^{8}-vasopressin, 825
Ventilation
  collateral, and hyperlucent lung, 395
  -perfusion relationships in chronic lung disease, effect of dichlorphenamide on, 79
Venular insufficiency, systemic, 158
Vitamin D-resistant rickets, analysis of twenty-four pedigrees with hereditary and sporadic cases, 222
Vitamin D sensitivity in sarcoidosis, 500

Waldenström macroglobulinemia, renal failure in, 151
Water permeability, effect of ADH on, 686
Water retention, abnormal, in congestive heart failure, 351
Wernicke's disease, postural hypotension as manifestation of autonomic nervous system involvement, 404
Wilson's disease, penicillamine therapy associated with nephrotic syndrome, 330

Xanthomatosis and familial hypercholesterolemia, 277
